## **N8038** Physical Properties

Applications: Injection for shoes, toys, etc.

Foam sheet for shoes, sandals, etc.

Extrusion coating

Characteristics: High elasticity

Good mechanical properties Good low temperature resistances

Additives: No slip, No Antiblock

Process Temp.: 130 - 180 °C

Hardness Shore D

Regulatory information

Complied with the U.S. F.D.A. 177.1350

Complied with the EU 10/2011

Complied with the RoHS Directive 2011/65/EU Annex II

[amended by Directive (EU) 2015/863]

# (IEC method) For plastics

Remarks: The values presented in this document are typical laboratory average, not to be construed as specification and may vary within moderate ranges. The application or accuracy of this information or suitable of our products cannot be guaranteed because the conditions of uses on the part of our users are beyond our control.
